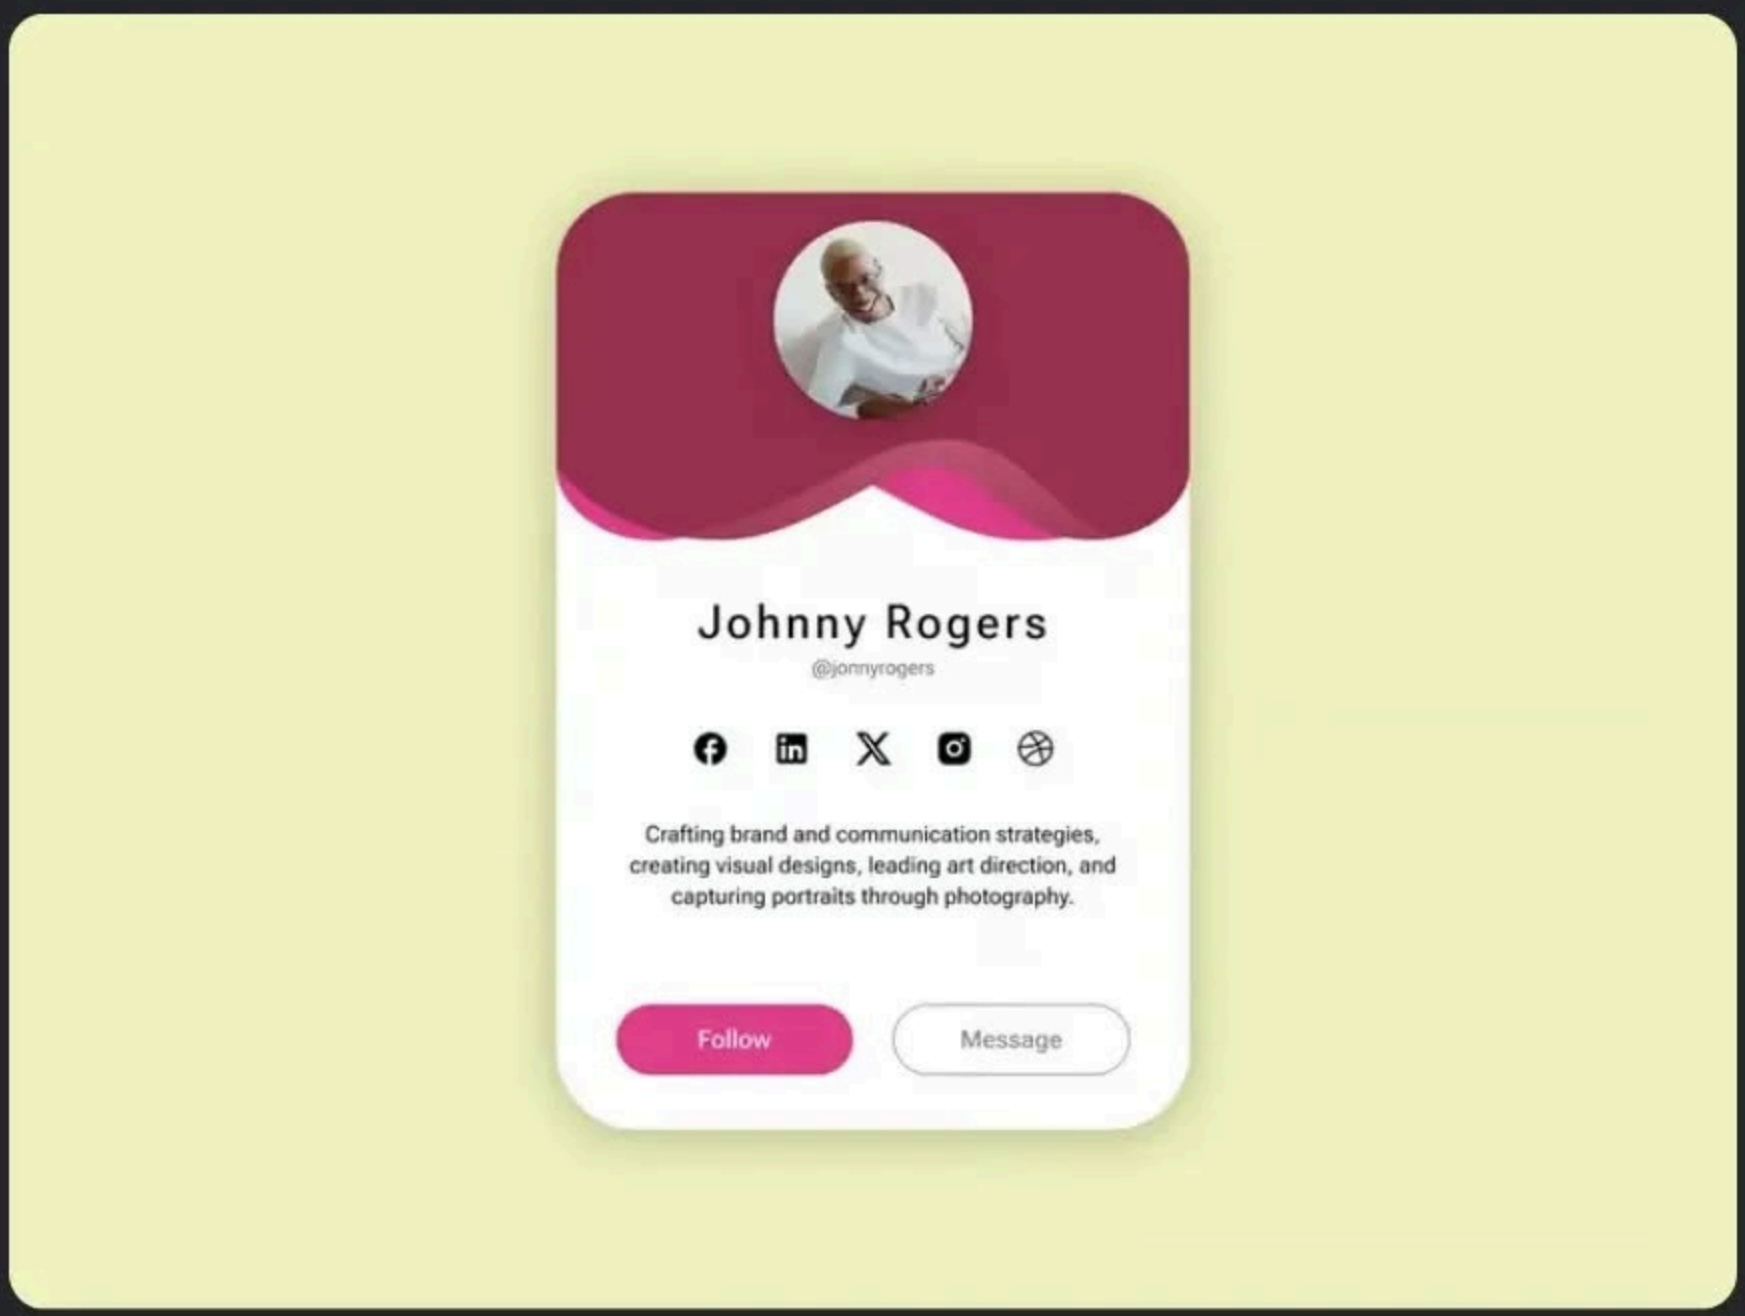
Practice Frontend with this Challenges

Varun Sharma

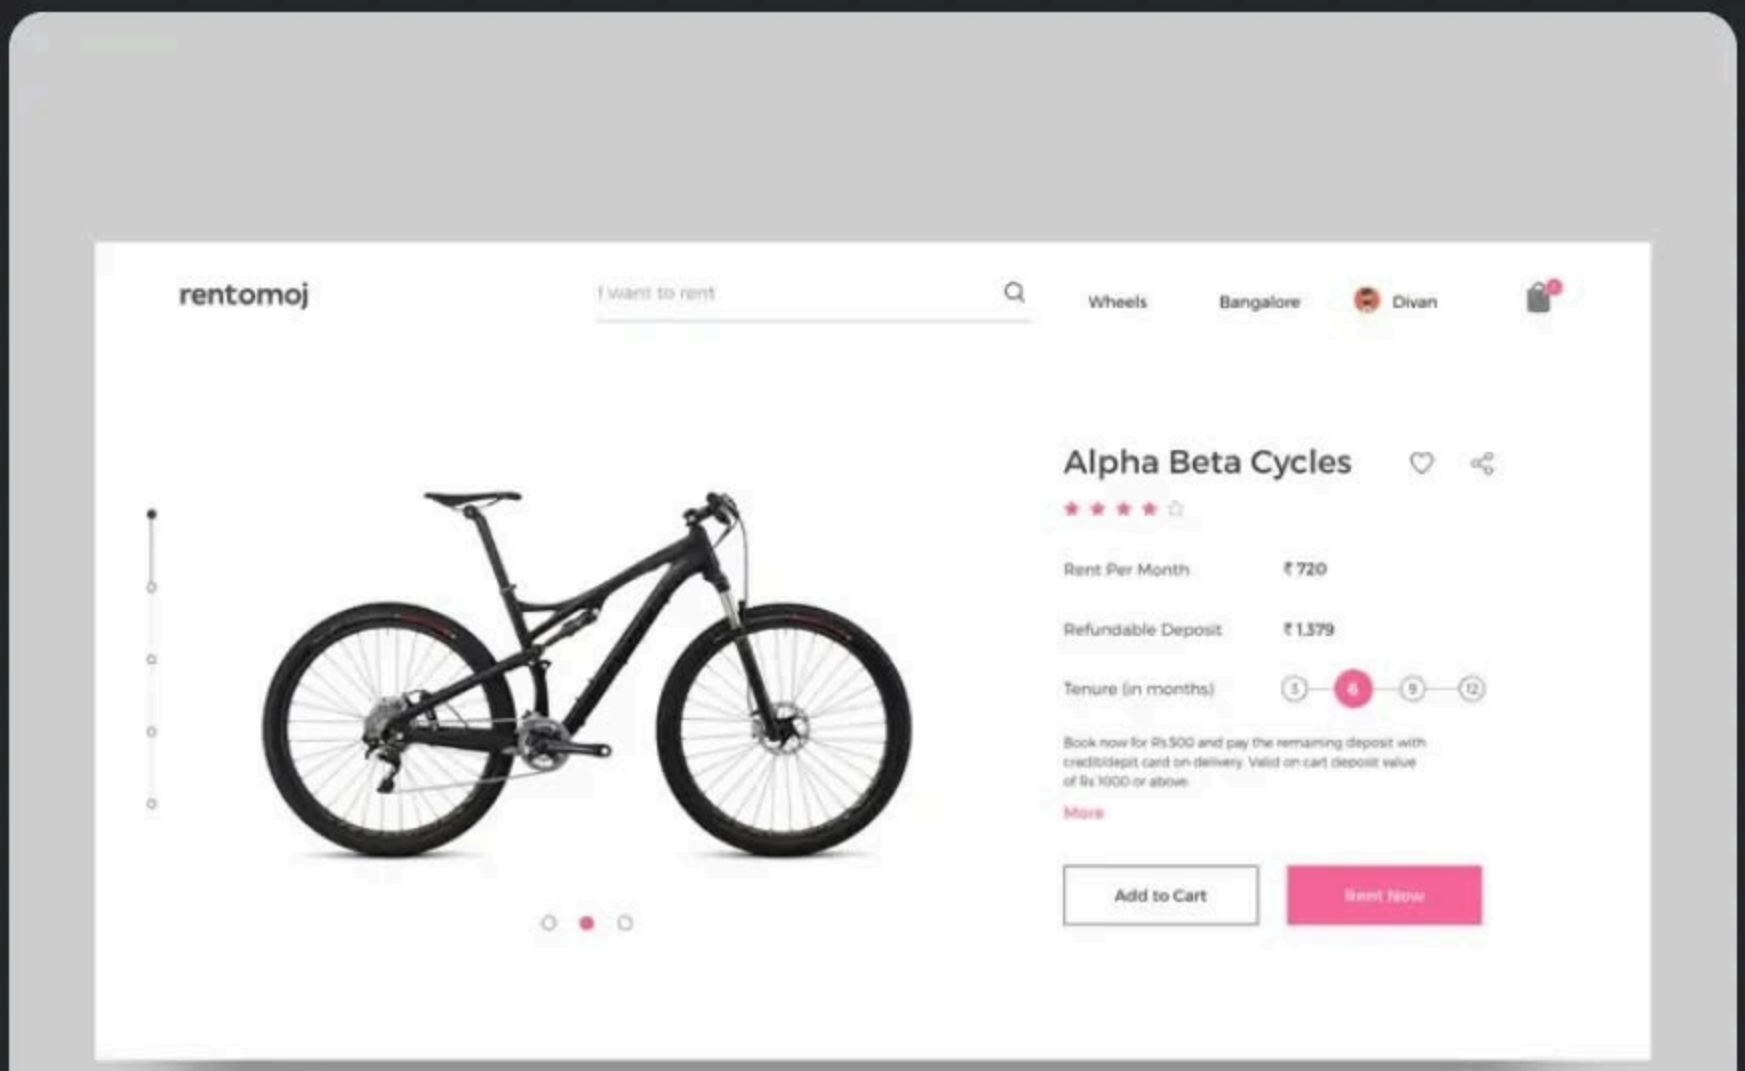
1. Profile Card

It is a perfect challenge for practicing Flexbox and improving your CSS skills.



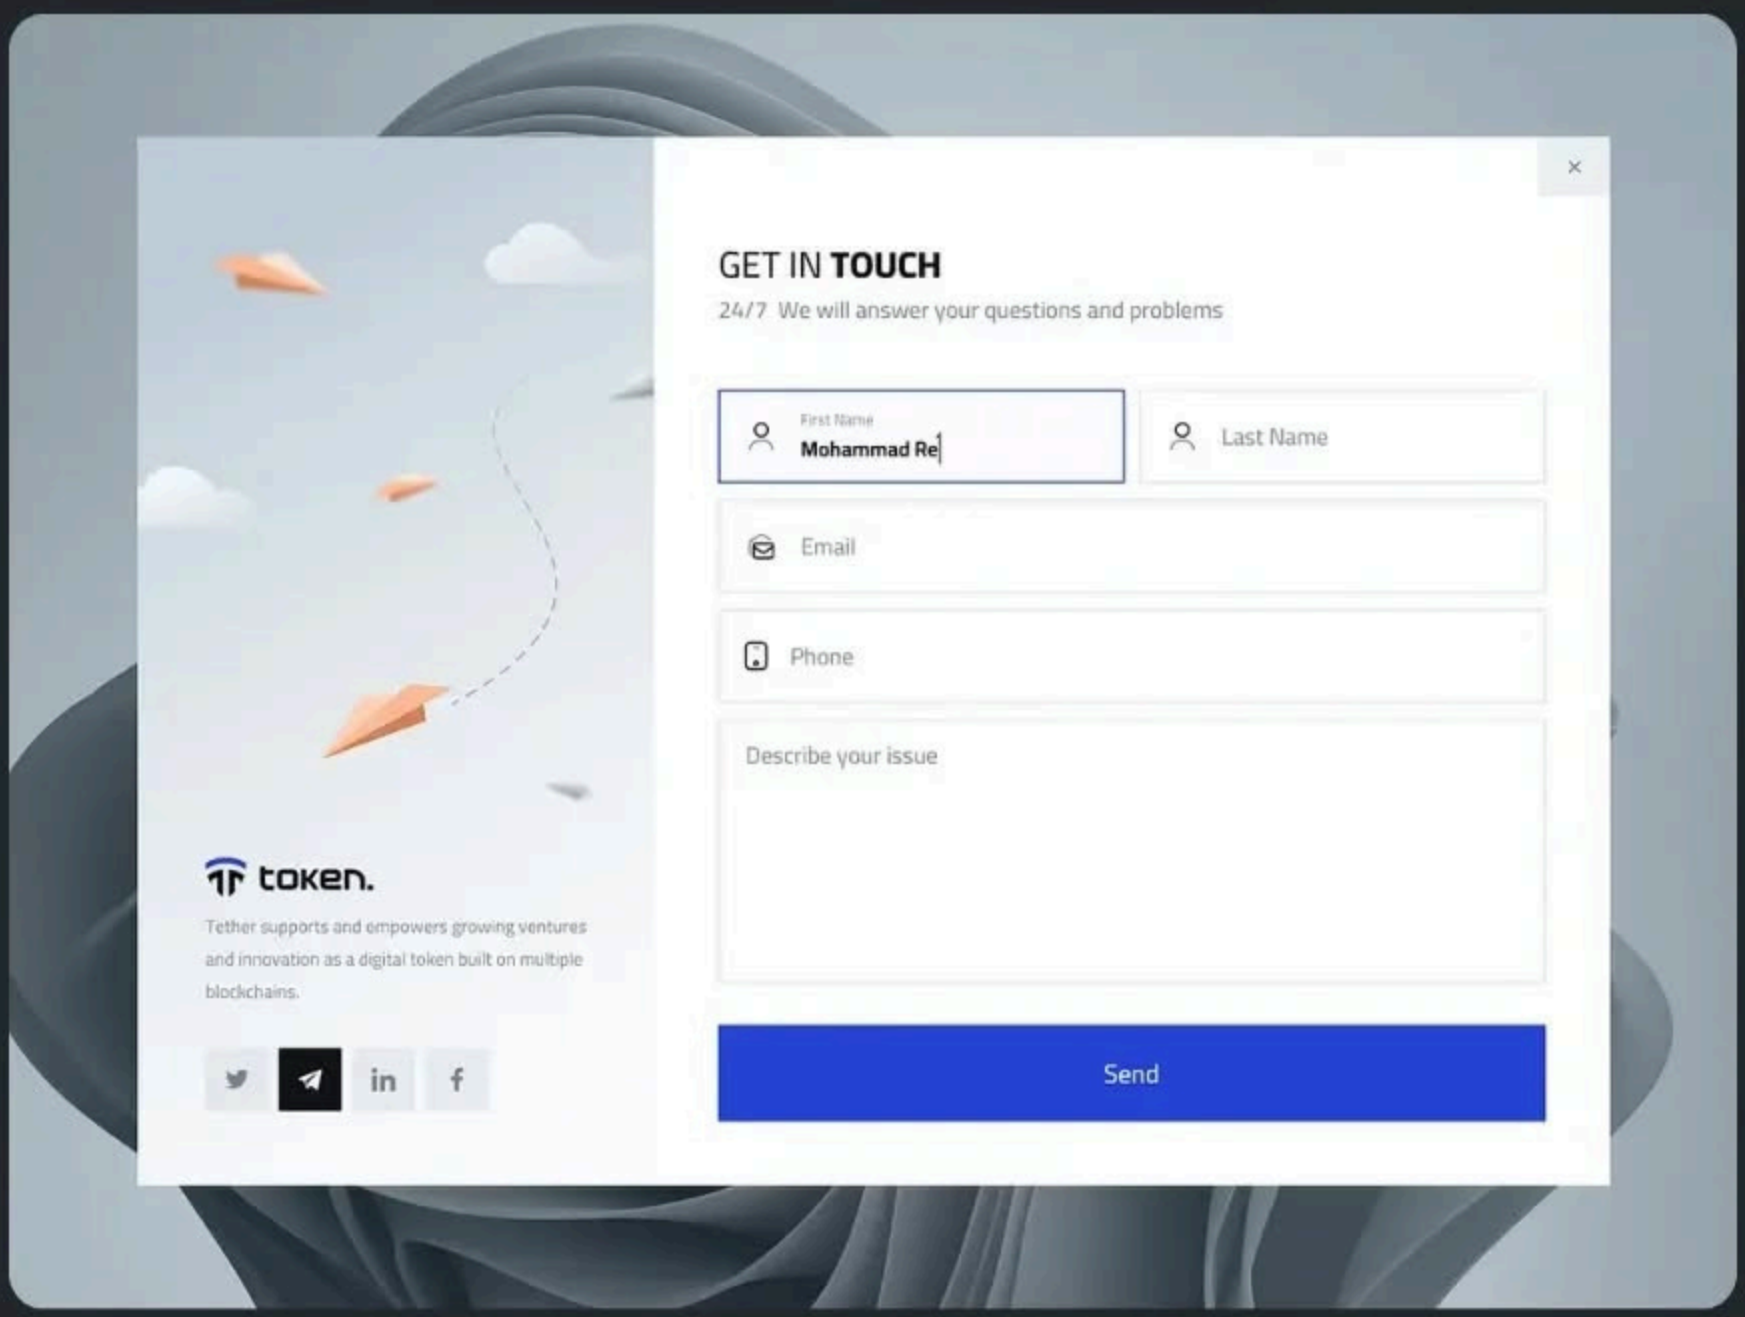
2. Product Page

Enhance your interactive design skills by creating a dynamic Add to cart experience.



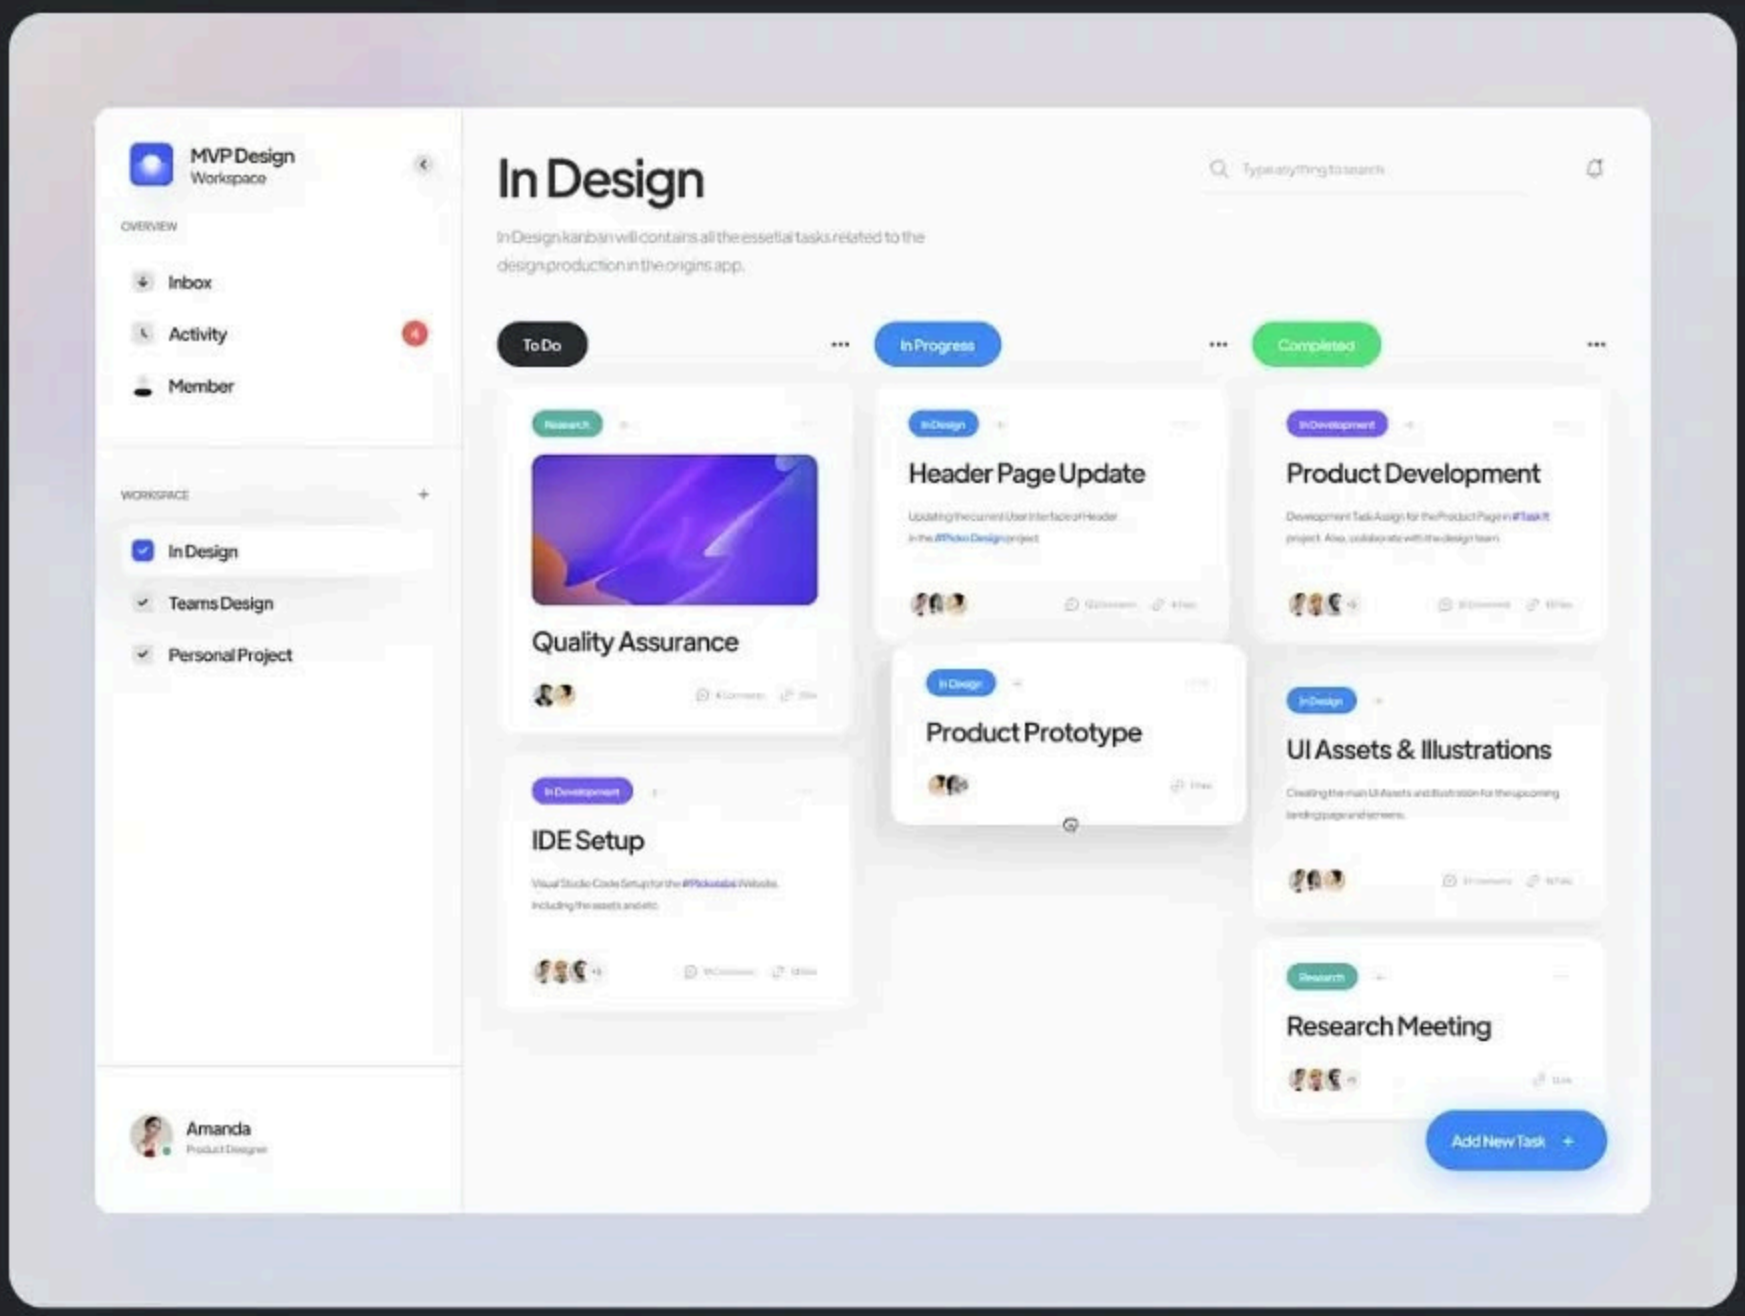
3. Contact Us

Learn to design an accessible and user-centric contact form for better customer interaction.



4. Task Board

Build a task management board that helps users organize projects and daily activities.



5. Music App

Implement a music app interface that allows opening a pop-up with the current song.
